

## TABLE OF CONTENTS

Section 1: Using this training manual	1-1
Section 2: About ARES	2-1
What is ARES	2-1
The history of ARES	2-2
The value of amateur communications	2-2
The ARES organization	2-3
Your participation	2-5
Section 3: ARES in context	3-1
What is a communications emergency?	3-1
The nature of disaster communications	3-1
Served agencies - our clients and partners	3-4
Other amateur radio emergency communications organizations	3-4
Emerging technologies	3-5
What to do today	3-7
Section 4: Understanding emergency operations	4-1
Assistance phases	4-1
ARES involvement	4-2
Emergency operations	4-2
Telecommunications	4-3
Role of amateur radio	4-3
Your participation as more than a radio operator	4-4

---

<b>Section 5: ARES services</b>	<b>5-1</b>
Emergency communications stations	5-1
Shadowing	5-1
Mobile communications service	5-1
Data messaging	5-1
Rapid community assessment	5-2
Backup communications	5-2
Interoperable communications (inter-agency bridging)	5-2
Wide-area communications relays	5-2

---

<b>Section 6: ARES roles</b>	<b>6-1</b>
ARES operators and stations	6-1
Communications officers (DCO, PCO)	6-2
Emergency coordinators for ARES	6-2
Communications supervisors	6-2
Station managers	6-3
Runners	6-3
Message clerks	6-3
Repeater managers	6-4
Technical support primes	6-4

---

<b>Section 7: Emergency preparedness</b>	<b>7-1</b>
Need for preparation	7-1
In your car	7-1
At home	7-2
At work	7-3

---

---

Equipment	7-3
-----------	-----

---

Section 8: Activations and mobilizations	8-1
Callouts	8-1
Activation and mobilization	8-1
Frequencies for ARES operations	8-5

---

Section 9: Working within the Incident Command System	9-1
About ICS	9-1
Radio communications within ICS	9-6

---

Section 10: Emergency operations	10-1
Types of nets	10-1
Types of traffic	10-2
Best practices for voice communications	10-3
Tactical voice procedures	10-5
Formal message handling	10-8
ARES internal tasking (orders) and information messages	10-12
Cross-band repeating	10-15
Working with and replacing other operators	10-16

---

Section 11: On-duty etiquette	11-1
When you deploy	11-1
On air	11-2
At an EOC	11-3
While shadowing	11-3
While deployed	11-4

---

---

Around the media 11-5

---

## Section 12: Participating in a net 12-1

Types of net 12-1

Duties of a net controller 12-3

What you need 12-3

Net control best practices 12-4

Opening a net 12-5

Managing check-ins 12-6

National Traffic System nets 12-6

Net control of a support net 12-12

Net control of CW traffic nets 12-12

---

## Section 13: On-air authentication 13-1

Procedure 13.1: Request authentication from another station 13-2

Procedure 13.2: Respond to a request for authentication from another station 13-3

Procedure 13.3: Responding to an authentication failure 13-3

Procedure 13.4: Monitoring a challenge-response between other stations 13-4

Procedure 13.5: Ordering a change to a new code table 13-4

Procedure 13.6: Changing to a new code table 13-5

Procedure 13.7: Resolving authentication failures 13-5

---

## Section 14: Equipment selection and configuration 14-1

Labelling and recovering equipment 14-1

Setting up shared stations 14-2

Emergency packs and kits 14-2

---

---

General preparedness gear	14-11
Handheld equipment	14-12
Primary radios	14-13
Backup radios	14-13
Power	14-13
Headsets	14-17
Equipment cases and carry bags	14-18
Tactical and identification vests	14-18
Computers	14-18
Software	14-19
Computer accessories	14-19
Specialized radio equipment	14-20
Vehicles	14-21
VHF radio configuration	14-23

---

## Section 15: Station configuration 15-1

Selecting a location	15-1
Station setup and configuration	15-1
Configuring a home station for effective ARES use	15-5

---

## Section 16: Frequently asked questions 16-1

What can I do to make myself more effective as an ARES operator?	16-1
--	------

---

## Section 17: Digital communications 17-1

Introduction	17-1
HF digital communications	17-1
VHF/UHF digital communications	17-2

---

National traffic system digital (NTSD)	17-2
Winlink 2000	17-3
Long-range WL2K communications	17-7
Developing an ECOM network	17-7
Message formats	17-8

---

## Section 18: After your deployment is over

Turn over logs	18-1
Debriefings	18-1
Dealing with post-incident stress	18-4

---

---

# Volume 2 - Support component

---

## Section 19: Station management

Station planning	19-1
Periodic station maintenance and validation	19-2

---

## Section 20: Managing communications operations

Duties of a communications supervisor	20-1
Best practices for communications supervisors	20-1
During ARES activation phase	20-2
Ongoing management of communications operations	20-2

---

## Section 21: Scheduling and selecting net controllers

Selecting net controllers	21-1
---------------------------	------

Scheduling net controllers	21-2
----------------------------	------

---

---

## Volume 3 - Emergency Coordinator component

---

---

### Section 22: Emergency Coordinator duties

General duties	22-1
Planning	22-1
Organizing locally	22-2
Coordinating with ARES groups, served agencies, and stakeholders	22-2
Communicating	22-3
During an emergency or an exercise	22-3

---

### Section 23: Emergency operations

ARES activation	23-1
Managing communications	23-3

---

### Section 24: Managing personnel and volunteers

Available personnel	24-1
Muster	24-2
Matching capabilities to requirements	24-2
Managing spontaneous volunteers	24-3

---

### Section 25: Recruiting

Preparing for recruitment	25-1
Plan your recruitment campaign	25-2

---

---

<b>Section 26: ARES planning</b>	<b>26-1</b>
Designing scenarios	26-1
Operational configurations	26-4
EC best practices	26-5
Making use of SET and other exercise opportunities	26-11
Best practices for emergency coordinators	26-11

---

<b>Section 27: Exercises</b>	<b>27-1</b>
Emergency exercises, drills, and communications practice sessions	27-1
Types of exercise	27-2
During an exercise	27-2
After the exercise	27-3
Using public service events as exercises	27-3

---

<b>Section 28: Creating standard operating procedures and documentation for your region</b>	<b>28-1</b>
Tips for writing a good SOP	28-6
Creating callout trees	28-6
Checklists	28-7

---

<b>Section 29: Administrative roles within ARES</b>	<b>29-1</b>
Section Emergency Coordinator (SEC)	29-1
Section Manager	29-2
Assistant Section Manager	29-3
District Emergency Coordinator (DEC)	29-3
Emergency Coordinator	29-5

---

---

---

## Volume 4 - Reference information

---

---

Section 30: Glossary 30-1

---

Section 31: Software selection and configuration 31-1

[Packet radio](#) 31-1

[APRS](#) 31-2

[Logging](#) 31-2

[Data conversion](#) 31-2

[Data compression](#) 31-3

[GPS tracking and mapping](#) 31-3

[Networking](#) 31-3

---

Section 32: Prowords and phrases 32-1

---

Section 33: ARES forms and stationery 33-1

[ARES message form \(radiogram\)](#) 33-2

[Public service activity report](#) 33-3

[Activation and Deployment Mission Statement and Band Plan](#) 33-5

[Operator quick reference](#) 33-9

[Emergency Reference Information for Amateur Radio Station](#) 33-11

[Example quick-reference card](#) 33-12

[Example ARES brochure](#) 33-13

---

Section 34: Anderson Powerpole connectors 34-1

[About Powerpoles](#) 34-1

---

---

Typical installations	34-3
Powerpole projects	34-12
Important cautions	34-13
Other types of connectors	34-14

---

## Section 35: Safety issues for ARES personnel 35-1

Basics	35-1
Emergency conditions	35-1
Priority One	35-1
Priority Two	35-1
Last priority	35-2
Qualifications	35-2
Hazards	35-2
Summary	35-2

---

## Section 36: First aid techniques 36-1

---

## Section 37: Using this manual in your training 37-1

Removing content that you do not need	37-1
Adding your own content	37-1
Preparing to be an effective trainer	37-2
