"Known as NA-009, the Perry Islands were divided in July 2014 into two groups. The islands to the east of Byam Martin Channel – which fall entirely under the administration of the Territory of Nunavut and which are part of CQ Zone 2 – remained denoted as NA-009. The islands to the west – which fall largely under the administration of the Northwest Territories and which are part of CQ Zone 1 – became NA-248. This is the final IOTA group in Canada still waiting to be brought on the air for the first time."
