“On May 14, John and Barrie received notification by email that the project was approved. By an amazing piece of luck, the vessel would be available to the team on May 22 in Prescott, Ontario only an hour from Barrie’s QTH. Luc, VE3JGL, volunteered to work with Barrie on the installation. May 22 was just 10 days before the departure of the ship on its epic voyage.” – see pages 32-36 for the complete story
